Results&Discussion

FOR APPLYING STYLES TO WEBPAGE, WE USED THE CSS: - IN CSS WE USED STYLE APLLIERS, ARE: - • Margin, padding, box-sizing, list-style, text-decoration, display, justify-content, align- items, width, height, font-size, letter-spacing, colour, font-weight, transition, border -radius, background- image, background-position,background-size, font-style,background-colour,outline, flex-direction etc.

- *For change of colour of button we use hover effect*

Conclusion:- I Had learnt many things by creating this project. I had experienced team work how to create projects in a team this project teaches me about deep CSS3 and JavaScript. I had used almost all the which I had learnt in my class. I'm very thankful to my teacher for supporting us in this project.

THANKYOU
